The QI Philosophy

The mindset behind the qualifying interview

"A QI is not something you do TO someone. It's something you do FOR someone."

It's About Them, Not You

The QI is not a presentation -- it's a conversation. Listen, understand, and connect the business to their needs.

Sort, Don't Convince

You're looking for people who are already looking for something more. Find the ones who are ready.

Posture With Care

Confidence is not arrogance. Lead with empathy, not pressure. Believe in what you have.

The Fortune Is in the Follow-Up

Most people don't say yes the first time. Consistent, caring follow-up is what separates builders from hobbyists.

Edify and Use the System

You don't have to be the expert. Edify your upline, lean on the tools, and let the system work.

"Treat every QI like you're sitting across from your best friend."
